![Imagine Learning]

Extend classroom learning
into your home.

With Imagine Learning's new **Anywhere Access** feature, when your students leave school they can log in to Imagine Learning at home and pick up right where they left off.

⊕ Imagine Learning is coming home

With the Anywhere Access feature:

- **Students can experience Imagine Learning outside of school** by logging in to a computer through the Internet.

- **Each student's progress within the curriculum is retained,** meaning students see exactly what they need to learn, exactly when they need it.

⊕ Maximize time spent in learning activities

The Anywhere Access feature helps your student get the most out of Imagine Learning:

- **Extra Student Practice.** Students can benefit from additional sessions during the week, and on days off from school.

- **Summer vacation.** Extend learning over the summer so your student has a head start when school resumes in the fall.

⊕ Where to login

- In your internet browser, go to this web address:

  http://twinrivers.ca.imaginelearning.net

- If you see the Unity Web Player screen, click *Install Now!* and follow instructions.

- Then enter your username and password:

  Account name:

  Password:
